

REPROGRAMMING ACTION - INTERNAL									
Appropriation Account Title: Operational Rapid Response Transfer Fund						DoD Serial Number: FY 99-056 IR			
Component Serial Number:		<i>(Amounts in Thousands of Dollars)</i>							
		Program Base Reflecting Congressional Action		Program Previously Approved by Sec Def		Reprogramming Action		Revised Program	
LINE ITEM		Quantity	Amount	Quantity	Amount	Quantity	Amount	Quantity	Amount
a		b	c	d	e	f	g	h	i
<p>This internal reprogramming action transfers \$300.0 million from the Operational Rapid Response Transfer Fund provided in Public Law 106-31, the 1999 Emergency Supplemental Appropriations Act. This transfer does not change the purpose for which the funds were originally appropriated and does not require the use of general transfer authority. It meets all administrative and legal requirements of the Congress and none of the items have been denied by the Congress. This action affects the Tactical Intelligence and Related Activities (TIARA) and the National Foreign Intelligence Program and has the concurrence of the Director for Central Intelligence. This action is not reflected in the FY 2000 President's budget.</p>									
<b>FY 1999 REPROGRAMMING INCREASES:</b>						<b><u>+300,000</u></b>			
<b><u>Operation and Maintenance, Army, FY 1999</u></b>						<b><u>+15,693</u></b>			
<u>Budget Activity 1: Operating Forces</u>									
		8,398,990		11,448,385		+15,350		11,463,735	
<p><u>Information Ops - \$.690 million.</u> Funds are required for contractor support in Kosovo for a large number of frequency authorization requests (\$.230 million); large system integration and interoperability expertise for in-theater C4 systems (\$.230 million); and computer network defense/information assurance (\$.230 million). These funds support needed capabilities identified by Operation Allied Force.</p>									
<p><u>Training Support to Deploying Units - \$1.468 million.</u> Funds are required for contractor logistics support for deployment of Tank Weapon Gunnery System and Precision Gunnery System trainers for one battalion as well as Engagement Skills Trainers for one squadron. This requirement provides systems to support training requirements of troops deployed in contingency operations and supports needed capabilities identified by Operation Allied Force.</p>									
<p><u>Field Kitchen Mobile Burner Unit (MBU) - \$2.837 million.</u> Funds are required to procure and deploy 2,200 MBUs for use in the Kosovo theater of operations. These funds support needed capabilities identified by Operation Allied Force.</p>									
<p><u>Reactive Armor Tiles- \$.955 million.</u> Funds are required for the installation of Reactive Armor Tiles on Bradley Fighting Vehicles. These funds support needed capabilities identified by Operation Allied Force.</p>									
<p><u>Hunter Unmanned Aerial Vehicles (UAVs) - \$9.400 million.</u> Funds procurement of depleted critical spares and stock items for Hunter residual UAVs to support higher usage rate of UAV assets. These funds support needed capabilities identified by Operation Allied Force.</p>									
<p>Approved (Signature and Date) Signed by Mr. William J. Lynn on August 26, 1999.</p>									

<b>REPROGRAMMING ACTION - INTERNAL</b>									
Appropriation Account Title: Operational Rapid Response Transfer Fund						DoD Serial Number: FY 99-056 IR			
Component Serial Number:		<i>(Amounts in Thousands of Dollars)</i>							
		Program Base Reflecting Congressional Action		Program Previously Approved by Sec Def		Reprogramming Action		Revised Program

<u>Budget Activity 4: Administration and Servicewide Activities</u>									
		4,920,917		5,209,994		<b>+343</b>		5,210,337	
<p><u>Reactive Armor Tiles- \$.343 million.</u> These funds support second destination transportation of Reactive Armor Tiles to the Kosovo theater of operations for installation on Bradley Fighting Vehicles.</p>									
<b><u>Operation and Maintenance, Navy, FY 1999</u></b>							<b><u>+3,000</u></b>		
<u>Budget Activity 1: Operating Forces</u>									
		15,267,217		16,292,352		<b>+3,000</b>		16,295,352	
<p>Funds will be used for EA-6B series depot level LD-HD engine repair to increase the pipeline for available engines required as a result of Operation Allied Force. The requirements for EA-6B deployment in support of the air campaign in Kosovo resulted in identification of an engine pipeline shortfall. These funds are required to increase engine throughput to meet contingency operation demands and usage of the EA-6B as identified in the Kosovo operation.</p>									
<b><u>Operation and Maintenance, Air Force, FY 1999</u></b>							<b><u>+3,600</u></b>		
<u>Budget Activity 1: Operating Forces</u>									
		9,776,607		11,188,796		<b>+3,600</b>		11,192,396	
<p><u>Predator UAV.</u> Operation Allied Force proved the critical need for additional capability and deployment of Predator UAV assets. Elsewhere in this reprogramming action, funds are provided for laser target designator modifications and for additional air vehicles. These funds are required to deploy these capability enhancements and additional vehicles.</p>									
<b><u>Aircraft Procurement, Army, 99/00</u></b>							<b><u>+6,090</u></b>		
<u>Budget Activity 2: Modification of Aircraft</u>									
		36,079		36,079		<b>+2,990</b>		39,069	
<p>This is a classified program. Additional information is available under separate cover.</p>

a		b	c	d	e	f	g	h	i
UH-60 Mods			21,657		21,657		+1,200		22,857
<p>Funds will be used to procure four airborne AN/ASC-15C(V)2 Command and Control (C2) Consoles for UH-60 Blackhawk helicopters. Contract award and delivery can be made immediately. These funds support needed capabilities identified by Operation Allied Force.</p>									
ASE Mods			2,743		2,743		+600		3,343
<p>Funds will be used to procure 50 AN/ALQ-144 Countermeasures Sets (CMS) and 50 AN/AVR-2A Laser Detecting Sets (LDS). The AN/ALQ-144 CMS is an active, continuously operating, omni-directional and electrically fired infrared jammer, designed to confuse or decoy threat infrared missile systems. The AN/AVR-2A LDS is a passive warning system that receives, processes and displays threat information. These funds support needed capabilities identified by Operation Allied Force.</p>									
<u>Budget Activity 4: Support Equipment and Facilities</u>							<u>+1,300</u>		
Air Traffic Control			5,691		5,691		+1,300		6,991
<p>These funds will be used to procure the Mobile Expeditionary Accurate Night Vision Compatible Portable Airfield Lighting System (MEANPALS), a mobile airfield lighting system using advanced laser guidance light systems to improve long range visibility in all weather conditions in areas with unimproved airfields in hazardous terrain. These funds support needed capabilities identified by Operation Allied Force.</p>									
<u>Procurement of Weapons and Tracked Combat Vehicles, 99/00</u>							<u>+700</u>		
<u>Budget Activity 1: Modification of Tracked Combat Vehicles</u>							<u>+700</u>		
BFVS Series (Mod)			75,498		75,498		+700		76,198
<p>Funds will be used to install 49 Reactive Armor Tile Sets on Bradley Fighting Vehicles. This survivability enhancement device is comprised of various sized and shaped tiles which use explosives to pre-detonate anti-tank missiles, thereby preventing penetration. These funds support needed capabilities identified by Operation Allied Force.</p>

<b><u>Other Procurement, Army, 99/00</u></b>						<b><u>+23,977</u></b>				
<b><u>Budget Activity 2: Communications and Electronics Equipment</u></b>						<b><u>+22,250</u></b>				
ACUS Mod Program		129,830		130,421		+6,000		136,421		
<p>Funds will be used to procure the TS-21 Blackjack digital fax which will improve interoperability and security of NATO communications systems by swift replacement of 1960s vintage facsimile machines with modern machines that provide high resolution target-quality images. These funds support needed capabilities identified by Operation Allied Force.</p>										
SHORTSTOP		10,000		10,000		+10,000		20,000		
<p>Funds will be used to procure 44 SHORTSTOP Electronic protection Systems, an artillery, rocket, and mortar countermeasures system which defeats proximity fuzed in direct fire munitions. These funds support needed capabilities identified by Operation Allied Force.</p>										
Tactical Unmanned Aerial Vehicle		-		-		+6,250		6,250		
<p>Funds will be used to procure 10 Hunter UAV Laser Designator Payload equipment systems that were on loan from the Israeli Defense Force during Operation Allied Force.</p>										
<b><u>Budget Activity 3: Other Support Equipment</u></b>						<b><u>+1,727</u></b>				
BN Countermine SIP		3,670		3,670		+280		3,950		
<p>Funds will be used to support acceleration of production of the remaining 5 units of the mini-flail countermine system that consists of a self-powered skid steer chassis subsystem, a countermine rotating flail system, and a remote control operating system. These funds support needed capabilities identified by Operation Allied Force.</p>										
Training Devices Nonsystem		60,755		60,755		+1,447		62,202		
<p>Funds are required for procurement of Tank Weapon Gunnery System and Precision Gunnery System trainers for one battalion as well as Engagement Skills Trainers for one squadron. This requirement provides systems to support training requirements of troops deployed in contingency operations and supports needed capabilities identified by Operation Allied Force.</p>

<b><u>Aircraft Procurement, Navy, 99/00</u></b>						<b><u>+156,000</u></b>				
<b><u>Budget Activity 5: Modification of Aircraft</u></b>						<b><u>+156,000</u></b>				
EA-6 Series		95,735		95,735		+115,000		210,735		
<p>Of the amount provided, \$39.0 million will be used to accelerate procurement of 78 ALQ-99 Universal Exciter Upgrade (UEUs). These upgrades are needed to improve the reliability of electronic warfare equipment used in combat operations. The total UEU inventory objective is 480 units. To date, 275 units have been funded. Contract award is scheduled for October, 1999, with first delivery in September, 2001. Another \$45.0 million will be used to procure 84 ALQ-99 Band 9/10 upgraded transmitters which are needed to provide an expanded jamming capability against advanced surface-to-air missiles. This additional funding will procure enough units to satisfy the inventory objective of 196 units and will enable retirement of the existing, less reliable transmitters. Contract award is scheduled for September 1999, with first delivery in June 2001.</p> <p>\$30.4 million will be used to procure 79 Multi-Mission Advanced Tactical Terminal/Improved Data Modem (MATT/IDM) systems which allow aircrews to receive intelligence broadcasts and transmit and receive data to and from other IDM compatible platforms. Funding will procure sufficient units to satisfy the inventory objective for the 124 EA-6B aircraft. Contract award is scheduled for August 1999, with first delivery in September 1999.</p> <p>Finally, \$.6 million will be used to upgrade structural and environmental design, to include air conditioning and heating systems, electrical generation and control circuitry, and access and ergonomic improvements to the EA-6B mobile maintenance facility. These upgrades are necessary to support deployed EA-6B operations. The above funds support needed capabilities identified by Operation Allied Force.</p>										
P-3 Series		291,633		291,633		+41,000		332,633

<b><u>Aircraft Procurement, Air Force, 99/00</u></b>						<b><u>+52,760</u></b>				
<b><u>Budget Activity 4: Other Aircraft</u></b>						<b><u>+17,000</u></b>				
Predator Unmanned Aerial Vehicle (UAV)										
		114,492		114,492		<b>+17,000</b>		131,492		
Funds will be used to modify 2 Predator Systems (8 air vehicles) with laser target designator and HAVE QUICK capable on-board radios. These systems provide the capability to designate targets for laser guided weapons. First delivery to the field will be in less than 4 weeks. Funds will also be used to replace four vehicles lost in operations, and to provide in-theater contractor support for modifications through FY 1999. These funds support needed capabilities identified by Operation Allied Force.										
<b><u>Budget Activity 5: Modification of In-service Aircraft</u></b>						<b><u>+35,760</u></b>				
B-1		91,614		91,614		<b>+5,000</b>		96,614		
Funds will be used to procure 6 ALE-50 towed decoy modification kits for B1-B aircraft. These funds support needed capabilities identified by Operation Allied Force.										
F-117		25,654		25,654		<b>+3,860</b>		29,514		
Funds will be used to procure 24 Enhanced GBU-27 kits for F-117s to provide adverse weather delivery of precision weapons during operations. These funds were diverted for Operation Allied Force efforts.										
F-16		239,119		239,119		<b>+22,700</b>		261,819		
Funds will be used for the JSTARS Quick Reaction Capability (\$3.5 million), a war related equipment upgrade. By increasing the hard drive capacity of F-16s to allow flight crews the use of more detailed background maps, their target situational awareness is increased. This enables time critical attack of ground targets. An additional \$19.2 million will be used to procure 58 ALE-50 towed decoy modification kits for F-16 aircraft. These funds support needed capabilities identified by Operation Allied Force.

H-60		17,224		17,224		+4,200			21,424
<p>Funds will be used to modify 8 HH-60G helicopters with upgraded self-protection systems which will include the M-130 Bulldog chaff/flare dispensers, ALQ-144 upgrades, plume detectors, and front/back crewmember launch. These systems provide automatic missile warning and countermeasure dispensing against infrared and radar surface to air missile threats. These funds support needed capabilities identified by Operation Allied Force.</p>									
<b><u>Other Procurement, Air Force, 99/00</u></b>						<b><u>+12,000</u></b>

DARP, MRIGS		85,294		85,294		+8,000			93,294
<p>Funds will be used to buy and integrate the Joint Targeting Workstation (JTW) into the Air Force Tasking, Processing, Exploitation, Dissemination infrastructure. JTW provides better geolocation accuracies needed to support rapid precision targeting and Precision Guided Munitions. Funds will be used to purchase and integrate the JTW hardware and software for the USEUCOM Joint Analysis Center (JAC), USAFE Combined Operations Intelligence Center (COIC), and ACC's Deployable Ground Station (DGS-2). Funds will also be used to buy elements of reachback communications architecture and to upgrade the USAFE Digital Imagery Processing System (DIPS) and ACC UAV Exploitation System (UES) used to receive/process satellite and video imagery required by the JTW. These funds support needed capabilities identified by Operation Allied Force.</p>									
Selected Activities						<b>+4,000</b>			
<p>Details are classified. Additional information is available under separate cover.</p>									
<b><u>Research, Development, Test, and Evaluation, Army, 99/00</u></b>						<b><u>+5,000</u></b>

PE 0604321A All Source Analysis System									
			34,081		34,081		<b>+3,000</b>		37,081
<p>Funds would be used to finance the software development for a mobile Army refugee management/tracking system database. This will be a new application added to the Army's ASAS (intelligence) system. EAW and Austin Information Systems are the contractors for this currently unfunded item. The Army expects prototype software to be available within 60 days and a final software package to be developed within six months. No additional hardware and outyear funding is required. These funds support needed capabilities identified by Operation Allied Force.</p>									
<b><u>Research, Development, Test, and Evaluation, Air Force, 99/00</u></b>							<b><u>+19,740</u></b>		
<b><u>Budget Activity 5: Engineering and Manufacturing Development</u></b>							<b><u>+13,700</u></b>		
PE 0604754F Joint Tactical Information Distribution System (JTIDS)									
			7,956		7,956		<b>+13,700</b>		21,656
<p>Funds LINK-16 Communication and Rosetta Gateway Advanced Concept Technology Demonstration deployment and communications interoperability for data link systems. Supports the air operations in the Balkans and potential ground operations. These funds support needed capabilities identified by Operation Allied Force.</p>									
<b><u>Budget Activity 7: Operational Systems Development</u></b>							<b><u>+6,040</u></b>		
PE 0207133F F-16 Squadrons									
			140,076		140,076		<b>+2,300</b>		142,376
<p>Funds will be used to modify the Block 25/30/32 software to include the ALE-50(V)2 capability and fund all developing and testing leading to certification of ALE-50 Towed Decoy System for the B-1B and F-16. These funds support needed capabilities identified by Operation Allied Force.</p>									
PE 0207141F F-117 Squadrons									
			5,147		5,147		<b>+3,740</b>		8,887
<p>Funds will be used to develop a software retrofit of EGBU-27 so that the F-117 can accept it. This software development effort will be accomplished in conjunction with the Stores Management Processor modification to ensure compatibility with the SMP upgrades. These funds support needed capabilities identified by Operation Allied Force.</p>
